

PROFITABLE YIELD FRONTIERS NETWORK

KANSAS GROWERS

WHAT IS THE PROFITABLE YIELD FRONTIERS NETWORK?

Connect and share results with other growers in the network.

A specialist works with you to assess your current system and identify opportunities on your farm.

Brainstorming and testing of practices for high-yielding, profitable wheat production.

Test technologies for more profitable wheat production with on-farm research.

Share results with every participating grower each season.

Review results, plan next season together.
(Travel and hotel covered)

Join a farmer-to-farmer network built to raise wheat profitability across Kansas. Work one-on-one with K-State specialists, test new practices on your own field, and compare notes with growers tackling the same challenges.
